

Eco-Friendly Travel Guide

1. Take public transportation when possible to reduce greenhouse gas emissions.
2. Choose eco-certified hotels that follow sustainable practices like water-saving systems and solar energy usage.
3. Consider biking or walking when exploring local destinations.
4. Avoid single-use plastics; carry a reusable water bottle and bags.
5. Offset your carbon emissions from flights by supporting reforestation programs.
6. Support local economies by buying local and eco-friendly products.
7. Travel light to reduce the airplane's fuel consumption.
8. Participate in eco-tourism activities that promote conservation and awareness.
